

Nerokem Speciality Products started with an objective to provide top quality cleaning chemicals and products to all types of industries

Nerokem provides chemicals, equipments, tools and accessories for the industries, institutions and service sector organizations. Our products are well accepted in the sectors like Food, Beverages, Breweries, Dairy, Pharmaceuticals, Electronics, Automotive, Hospital, Hotels, Laboratory and many more.

## USP

We take pride in being able to provide our customers with unmatched and consistent quality of products and services. This is made possible by providing customized solutions to each of our customers based on their cleaning needs. Our USP lies in delighting our customers with our belief in the principle - "Whatever, Wherever & However be the Cleaning Need, We have a solution for you".

› Process    › Personnel    › Place

**Cleaner the Process, Personnel & Place, Better the Product.**

**We support you to achieve the former, Whatever, Wherever and However...**

At Nerokem, we focus on providing comprehensive cleaning solutions to our clients. We firmly believe that when these 3P's - Process, Personnel and Place are ensured to be clean, it would meet all the cleaning needs of any industry.

## FOOD & BEVERAGE PROCESSING

Food & Beverage processing demands a high level of cleanliness as even the smallest foreign particle in the end product can result in a sub standard product. This can be disastrous leading to a tarnished brand image exposed to many allegations. It takes huge efforts and resources to build a brand, but would need only a small contamination to destroy the good image for a long time. Places which demand high level of cleanliness are offered innovative solutions by Nerokem Speciality Products that are designed to meet the demands by improving worker safety, increasing operational efficiency, and optimizing operations. The seamless implementation of all these ensure a perfect product and to top it all, enhance the brand image.

### SOLUTIONS

We offer comprehensive solutions for various industries under food and beverage processing, which includes vegetable & meat processing, bakeries, confectionaries, dairy processing and breweries. The solutions we provide are General Cleaning & Sanitation, Clean in place, Clean out place, Bottle washing, Cleaning Validation and Training.

## HEALTHCARE

Cleanliness gains paramount importance when it comes to the healthcare industry where the chances of spread of infection are high when left unattended. Patients as well as their families expect a hygienic environment during their stay for treatment. This when fulfilled increases the credibility of the hospital in their mind. Nerokem is committed in supporting you to ensure the maximum level of environmental sanitation by researching, developing and providing state-of-the-art products that help your patients feel comfortable and most importantly give their families the assurance that their loved ones are in the best hygienic environment.

### SOLUTIONS

We offer extensive solutions for multi speciality hospitals, nursing homes, emergency medical services and alternate health care services. They include General Cleaning & Sanitation, Surface cleaning & Sanitation, Equipment Sanitation, Personal hygiene, Restroom Care, Air Sanitizing & Odor control.

## HOSPITALITY INDUSTRIES

First impression is said to be the Best impression. It becomes the top most priority to impress the guests at the very first instance so that they are left with memorable experiences during their stay. Nerokem supports you to ensure that your guests are greeted with Sparkling surfaces, Spotless floors, Glasses & Impressive Restrooms, every single time of their visit.

Our products and services include Floor Care, Restroom Care, Odor Control, Laundry, General Cleaning & Sanitation, Kitchen & Food Safety, Carpet Care, Steel Care, Wood Care & Glass Care.

## FACILITY MANAGEMENT COMPANIES

Apartments, Office buildings, Retail spaces, Residential & Commercial complexes, Factories and Warehouses always need a clean and safe environment to help the inhabitants stay in sanitized environment thereby ensuring peace of mind. We offer products and services that provide comprehensive solutions for all your cleaning needs which result in building a good relation with the client ultimately leading to an increase in customer satisfaction.

Our products and services include Floor Care, Restroom Care, Odor Control, Laundry, General Cleaning & Sanitation, Kitchen & Food Safety, Carpet Care, Steel Care, Wood Care, Glass Care, Dispensing systems, Training & Consultancy.

## RESEARCH LABORATORIES

Research laboratories demand the highest level of cleaning and decontamination as even a smallest impurity could lead to a deviated result and a wrong inference. When the cleaning standards are so high, it requires an expert to address this need. We, at Nerokem Speciality Products, pride ourselves in our expertise by providing state-of-the-art products and the most innovative and versatile cleaning techniques to meet the standards as required.

Our products and services include Laboratory & Glassware Cleaning, Workplace hygiene, General Cleaning & Sanitation, Training & Consultancy.

## TOOLS & ACCESSORIES

The process of cleaning becomes complete only when a good cleaning product is coupled with the correct tools/accessories and method of application. With the vast experience and a deep understanding of the nuances in the process of cleaning, we have associated ourselves with the pioneers in cleaning tools to provide our clients with products that are second to none.

PRODUCT		DESCRIPTION	DILUTION	APPLICATION
